Active Matrix Combined Line Array

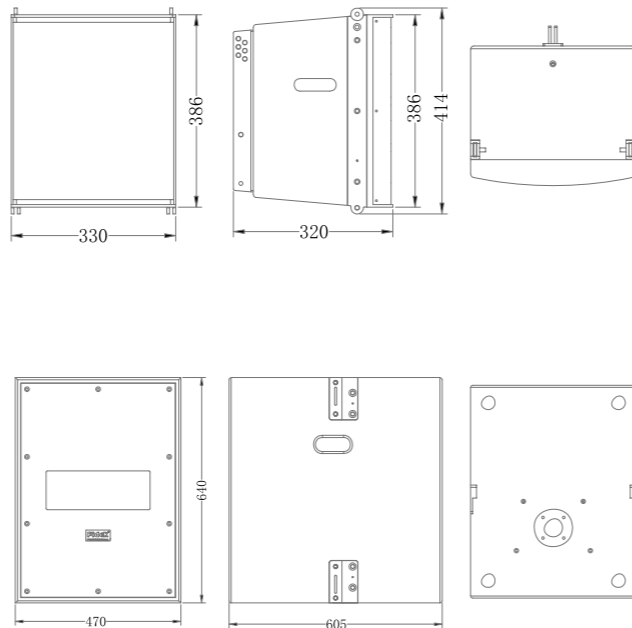

FLS-642H

FLA-212SW

PRODUCT STRUCTURAL SKETCH

FEATURES

- FLS-642H is a small-sized passive two-way matrix line array speaker, with high sound pressure and sound quality, containing 6 x 4" full-range unit and 8 x 1" tweeters. So many units tightly lined up in the same speaker, so that its sound pressure is highly concentrated, not only can output high sound pressure and high-quality sound, but also make the sound field coverage more even, sound quality thick and bright sound, natural and clear.
- The FLA-212SW consists of two 65-core 156-magnetic 12" woofers in a small package. Low frequency Surging, full and powerful.
This small line array hanging system can be combined at will.

FLS-112B

FEATURES

- FLS-832H is a small-sized passive line array speaker, with high sound pressure and sound quality, containing 8 x 2.5" full-range drivers and 8 x 1" tweeters. So many units tightly lined up in the same speaker, so that its sound pressure is highly concentrated, not only can output high sound pressure and high-quality sound, but also make the sound field coverage more even, sound quality thick and bright sound, natural and clear.
- FLS-112B is a high-output band pass speaker with a 75-cell 190-magnetic 12" woofer. It makes full use of the energy radiated from the front and rear of the unit, so that the low frequency is surging, full and powerful.
This small line array hanging system is safe, reliable and easy to
